

# EchoLens Video Analysis Report

## General Information

**Analyzed on:** September 29, 2025 at 03:14 PM

**Video Duration:** 11.57 seconds

## Analysis Results

**Predicted Event:** roadaccidents

**Confidence:** 95.00%

**Event Summary:** The surveillance video initially captures a bustling urban street, with numerous pedestrians walking on crowded sidewalks and vehicles moving on the adjacent road. This ordinary scene is abruptly interrupted when a large vehicle overturns on the street, causing a cloud of dust. In the immediate aftermath, pedestrians react to the incident, and a person is seen lying on the ground amidst debris, surrounded by onlookers, indicative of a recent and significant road accident.
