Analysis Results

Predicted Event: roadaccidents

Confidence: 98.00%

Event Summary: The event describes a road accident at an intersection, starting with a large truck making a right turn that creates dangerous proximity with a motorcyclist and other vehicles. This precarious situation escalates into a collision involving a white car and a motorcycle. The immediate aftermath captures a serious accident scene, with the white car displaying a shattered windshield, a man exiting the damaged vehicle, and debris and people scattered across the road.
