

EchoLens Video Analysis Report

General Information

Analyzed on: September 29, 2025 at 05:25 PM

Video Duration: 11.57 seconds

Analysis Results

Predicted Event: roadaccidents

Confidence: 98.00%

Event Summary: The video initially shows a bustling urban street with pedestrians on sidewalks and various vehicles in motion, depicting a typical busy city environment. This scene then transitions to the immediate aftermath of a significant road accident, where a large vehicle, likely a bus, has overturned onto its side on the street, with numerous pedestrians observing the scene amidst visible dust or smoke.
