

# EchoLens Video Analysis Report

## General Information

**Analyzed on:** September 29, 2025 at 03:52 PM

**Video Duration:** 11.57 seconds

## Analysis Results

**Predicted Event:** roadaccidents

**Confidence:** 98.00%

**Event Summary:** The surveillance video initially depicts a bustling urban street scene, with numerous pedestrians walking on wide sidewalks and multiple vehicles, including a black car, moving on the adjacent road, with one person standing near a prominent red sign. This normal activity is then abruptly disrupted by a major road accident where a large white vehicle overturns on the street. In the immediate aftermath, a person is observed lying on the ground near the damaged vehicle, enveloped in a cloud of dust or debris, as numerous bystanders gather around, reacting to the unfolding emergency.
