Video Duration: 21.16 seconds

Analysis Results

Predicted Event: roadaccidents

Confidence: 99.00%

Event Summary: The surveillance video depicts a hazardous traffic event unfolding at an intersection, beginning with a red car turning left, closely followed by a motorcycle, as a large truck approaches from the right, setting up a potential collision. This dangerous convergence results in a road accident. The immediate aftermath, visible at the sunny intersection, shows a crumpled white car with a shattered windshield, a fallen motorcycle, scattered debris, and multiple individuals lying on the ground, with others gathered around the scene.
