General Information

Analyzed on: September 29, 2025 at 05:34 PM

Video Duration: 11.57 seconds

Analysis Results

Predicted Event: roadaccidents

Confidence: 95.00%

Event Summary: The surveillance video initially depicts a typical busy city street with pedestrians and various vehicles, including a bus, in normal motion. This routine is sharply interrupted by a black car moving rapidly, which immediately precedes a major road accident. The scene escalates to show a large vehicle, possibly a bus, overturned on the street amidst a cloud of dust or smoke, as pedestrians observe from the adjacent sidewalk. The aftermath reveals a person lying on the road next to damaged objects and debris, indicating a serious road accident with potential casualties.
