

# EchoLens Video Analysis Report

## General Information

**Analyzed on:** September 30, 2025 at 05:37 PM

**Video Duration:** 21.16 seconds

## Analysis Results

**Predicted Event:** roadaccidents

**Confidence:** 98.00%

**Event Summary:** The descriptions detail a road accident that occurred at an intersection, likely involving at least one car and a motorcycle. While one description mentions a large truck turning with a motorcycle closely alongside, another more directly indicates a red car turning into the path of a motorcycle carrying two riders. The immediate aftermath consistently shows a significantly damaged white car with a shattered windshield, debris scattered across the road, and multiple people on scene, with some lying on the ground, others gathered near a motorcycle at the roadside, and a man emerging from the damaged vehicle.
