

# EchoLens Video Analysis Report

## General Information

Analyzed on: September 28, 2025 at 05:07 PM

Video Duration: 11.57 seconds

## Analysis Results

Predicted Event: roadaccidents

Confidence: 95.00%

**Event Summary:** The surveillance video initially depicts a routine, bustling city street with numerous pedestrians walking on crowded sidewalks and vehicles driving on the adjacent road. This scene abruptly transitions to chaos when a large vehicle, possibly a bus or truck, is shown overturning on the street. The event culminates in a severe accident, with dust and debris rising and a person lying on the ground in the immediate aftermath, as pedestrians react to the unfolding disaster.
