# EchoLens Video Analysis Report

## General Information

**Analyzed on:** September 29, 2025 at 03:58 PM

**Video Duration:** 11.57 seconds

## Analysis Results

**Predicted Event:** roadaccidents

**Confidence:** 98.00%

**Event Summary:** The surveillance video captures a bustling urban street, initially showing typical pedestrian and vehicle activity. This routine is violently disrupted when a large vehicle overturns on the street, generating a cloud of dust and debris, with pedestrians witnessing the event from the sidewalk. The aftermath reveals a person lying sprawled on the ground, appearing to be the victim of this collision with the large vehicle.
