EchoLens Video Analysis Report

General Information

Analyzed on: September 29, 2025 at 05:09 PM

Video Duration: 11.57 seconds

Analysis Results

Predicted Event: roadaccidents

Confidence: 95.00%

Event Summary: The surveillance video initially depicts a typical bustling city street, with numerous pedestrians navigating sidewalks and vehicles traveling on the adjacent roadway. This ordinary scene is then abruptly interrupted by a major road accident where a large vehicle, possibly a bus, has overturned and lies on its side in the street. A cloud of smoke or dust rises from the site as numerous pedestrians react to the unfolding emergency, with at least one person seen fallen on the ground in the immediate aftermath.
